

FORZABAND™

Polyester (PET) and polypropylene (PP) strapping are safer, easier, and more economical alternatives to steel strapping. PP strapping is half the weight of steel and is highly economical for light to medium weight loads and general duty applications

ITEM #: 15206

PRODUCT ATTRIBUTES

WIDTH	3/8"	CORE	8 x 8"
LENGTH	12900'	COLOR	White
THICKNESS	.024"	FINISH	Embossed
WEIGHT	45 lbs	TYPE	Polypropylene (PP)
BREAK STRENGTH	300 lbs	STYLE	Machine Grade

USAGE

Economical Strap for general applications. Ideal for light to medium duty loads. Suitable for semi and fully automatic strapping heads

TEMPERATURE

-20° to 320° F, Cannot store long term below 32° F. Can be heat sealed/friction welded.

FEATURES

PP strap retains tension and keeps your goods secure during transport. Lightweight and easy to use.
