

FORZABAND™

Polyester (PET) and polypropylene (PP) strapping are safer, easier, and more economical alternatives to steel strapping. PP strapping is half the weight of steel and is highly economical for light to medium weight loads and general duty applications

ITEM #: 15218

PRODUCT ATTRIBUTES

WIDTH	5/8"	CORE	16 x 6"
LENGTH	6000'	COLOR	Black
THICKNESS	.035"	FINISH	Embossed
WEIGHT	35 lbs	TYPE	Polypropylene (PP)
BREAK STRENGTH	900 lbs	STYLE	Hand Grade

USAGE

Economical Strap for general applications. Ideal for light to medium duty loads. Suitable for semi and fully automatic strapping heads

TEMPERATURE

-20° to 320° F, Cannot store long term below 32° F. Can be heat sealed/friction welded.

FEATURES

PP strap retains tension and keeps your goods secure during transport. Lightweight and easy to use.
