

PART #

21201

GAUGE	35 ga
LENGTH	1500'
WIDTH	16"
COLOR	Clear
MATERIAL	Hand Film
TEMPERATURE	Stored between 5°C to 25°C
LONGITUDINAL ENDURANCE	90k GN/m
TRAVERSE ENDURANCE	200k GN/m
PUNCTURE RESISTANCE	>65g

APPLICATIONS

High load retention produces a "strapping" effect on the load creating a powerful grip and excellent pallet stabilization.

FEATURES

Provides savings in storage space, transportation costs, roll change time and down time.

Reduced "necking down" leads to fewer wrap cycles per pallet for all over faster wrapping.

Self-gripping film automatically contracts when applied to provide extra stability.

The films core is designed to interface seamlessly with the dispenser.
