

Standard Operating Procedure

How to wrap the perfect pallet in 3 steps

Using the **GRIP** film dispenser

SYSTEMS
grip

STEP 1

Wrap 3 times around the bottom of the pallet, with the skid plate flat to the floor.

STEP 2

Rotate around the pallet moving upwards, with 100mm overlap as you go.

STEP 3

Lastly, wrap 3 rotations around the top in order to fully secure the load.

HEALTH & SAFETY INFORMATION

SYSTEMS
grip

Improved ergonomics relieves stress on lower back and speeds up the wrapping process.

The unique design and application process when using GRIP® means you are always aware of your surroundings and potential hazards.

The lightweight construction of GRIP® makes it easy to maintain film tension - even when working at height.

The GRIP® robust skid plate allows you the flexibility to easily add extra load support.
